

PLUMBINGAIM:

Using the given components completely join the pieces to make the arrangement as shown in Figure.

APPLICATION:

Used for house hold purpose.

SUPPLIED MATERIAL:

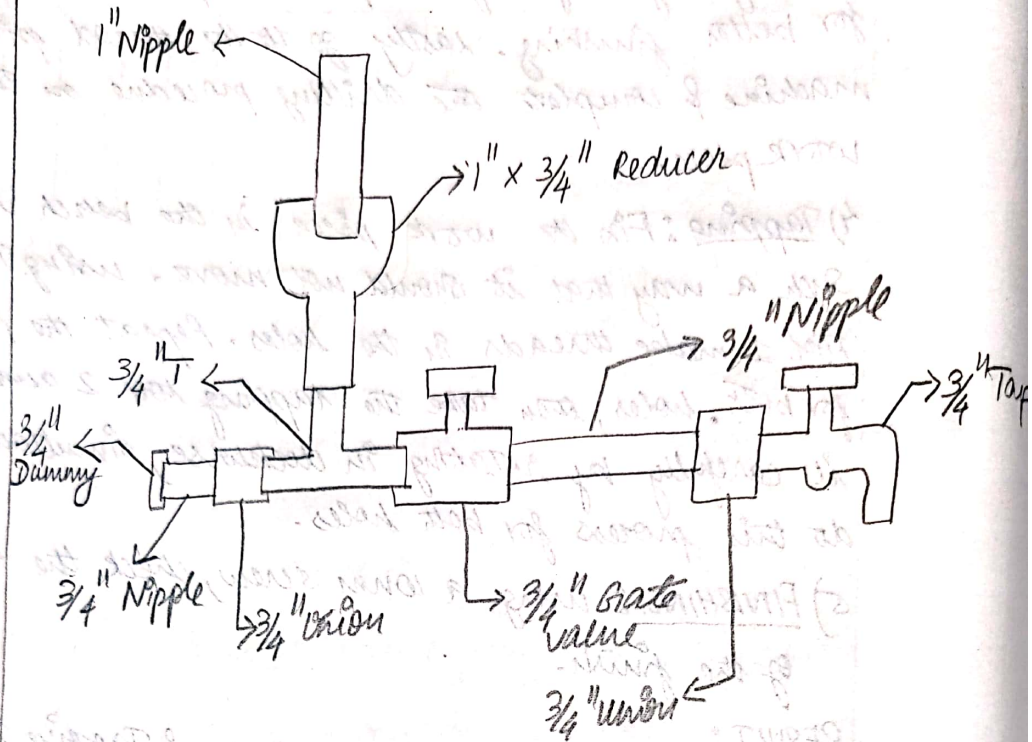

- 1) 1" x 6" GZ pipe.
- 2) 3/4" x 6" GZ pipe.
- 3) 1/2" x 6" GZ pipe.
- 4) 1/2" x 3" GZ pipe.
- 5) 1/2" PVC pipe Tap
- 6) 1/2" Dummy.
- 7) 3/4" x 1/2" reducer.
- 8) Ball valve
- 9) 1/2" steel plug.
- 10) 1/2" coupling.

TOOLS REQUIRED:

- 1) Adjustable spanner.
- 2) pipe wrench.
- 3) pipe vice.
- 4) double end spanner.
- 5) Ring spanner.

SEQUENCE OF OPERATION:

- 1) Setting.
- 2) Joining.
- 3) Tightening.
- 4) Checking.

WORKING STEPS :

1) SETTING:

Set the given materials as required in the figure.

2) JOINING:

The given materials are joined as required in the figure.

3) TIGHTENING:

The joints are tightened by using pipe wrench (or) Adjustable spanner (or) screw end spanner (or) all.

4) CHECKING:

This step is done, only to check whether there is any leakage (or) not.

RESULT:

The pipe has been joined together as it was shown in the figure.
